Ahmednagar, India

## Experience

**GDB Learning Solutions Pvt Ltd**

**Dec 2023 – Mar 2024**

*Project Intern*

*Pune, Maharashtra*

- Collaborated as a member of the Web Portal Development team, contributing to frontend development for a platform focused on college prediction.
- Utilized Vite tool, React, and Tailwind CSS to develop some user-friendly responsive web pages.
- Worked closely with cross-functional team members to ensure seamless integration and functionality across the platform.

## Education

**Pune Institute of Computer Technology**

**Aug. 2021 – Present**

*B.E. (Information Technology) – CGPA – 8.78*

*Pune, Maharashtra*

**Shramik Junior College**

**Jun. 2020 – Apr. 2021**

*HSC (Science stream) – Percentage – 93.00*

*Sangamner, Maharashtra*

**Bhausaheb Gunjal Patil Sahyadri Vidyalaya**

**Jun. 2018 – Apr. 2019**

*SSC – Percentage – 92.00*

*Sangamner, Maharashtra*

## Projects

### JobHunt

- Developed a job portal website that enables users to search and apply for jobs posted by recruiters, ensuring a seamless user experience.
- Created dynamic UI components that allow users to filter job listings, view job details, and apply for jobs easily, improving user interaction and engagement.
- Tech Stack : React, Tailwind CSS, Node.js, MongoDB, Express.

### Blogger

- Developed a website for reading blogs, allowing users to browse and read dynamically updated posts, providing seamless and engaging user experience.
- Created an administrators dashboard to easily add, edit, and manage blog posts, ensuring streamlined content control.
- Tech Stack: Next.js, Tailwind CSS, MongoDB.

### SplitBuddie

- Developed an Android application that allows user to add expenses and split them among group members.
- The system enables users and groups to add invoices, track debts between members, and facilitate settlement.
- Tech Stack : Flutter, Node.js, MongoDB, Express.

## Technical Skills

**Languages:** C++, SQL, Javascript

**Coursework:** Object Oriented Programming, Data Structures & Algorithms, Database Management System

**Databases:** MySQL, MongoDB

**Development:** HTML, CSS, Tailwind CSS, React, Flutter, Next.js

## Achievements

- Highest Rated 1682 on Leetcode & 1346 on Codechef.
- Active participation in more than 30 coding contests & Solved 300+ problems on coding platforms.
- Participated in The CoDay - a 24 hour coding competition.

## Coding Profiles

- Leetcode - [spt\\_123](https://leetcode.com/spt_123)
- Codechef - [spt\\_123](https://www.codechef.com/spt_123)
